

Md. Safayet Hossain

Frontend Designer & UI/UX Designer

Career objective

As a UI/UX designer, I create digital products such as websites, dashboards, mobile apps and software by understanding and optimizing the user experience. I am very friendly, polite and like to do my job duties responsibly.

On the other hand, as a highly-skilled frontend developer, I use my coding skills and experience working with UX/UI teams to implement high-performance websites and web applications and provide responsive web design/RWD multi-device and all-platform user experiences.
